Chapter 1: The Red Sky and The Closed Door

Poori duniya mein is waqt maatam aur khauf ka mahol tha. Aasmaan ne apna neela rang kho diya tha; ab wahan sirf ek gehra, darawana laal rang bacha tha. Multiverse ke saare universes ek-doosre ke itne kareeb aa gaye the ki logon ko aasmaan mein doosri duniyaon ke pahad aur sheher dikhayi dene lage the. Sabko lag raha tha ki ab anth kareeb hai, ki ye duniya ab mita di jayegi.

Isi darr aur afra-tafri ke beech, is universe ka **Om**—ek bhatka hua, par behad hoshiyar scientist—Bhuvan se milne IKS lab aaya. Bhuvan ne Om ki aankhon mein wahi junoon dekha jo kabhi usne apni team mein dekha tha, aur bina soche Om ko apne saath shamil kar liya.

Kayi dinon ki din-raat mehnat ke baad, jab thakaan hadd se guzar gayi, toh Om ne darti hui awaaz mein apne idol ke baare mein pooch hi liya, *"Sir... Ishaan sir kahan hain? Maine unhe yahan ek baar bhi nahi dekha."*

Ye sunte hi Bhuvan ke haath ruk gaye. Uski thaki hui aankhein nam ho gayi. Usne lab ke us band darwaze ki taraf dekha aur bhari awaaz mein kaha, *"Jab se wo Dimensional Nexus se lauta hai, Om, wo apne kamre se bahar nahi nikla hai. Hum use khana dete hain, par wo mushkil se ek-do niwale khata hai. Usne ek shabd nahi bola ki wahan uske saath kya hua... aur Avika kahan hai."*

Us band darwaze ke peeche sirf ek khamoshi thi, jo poori lab ko andar hi andar kha rahi thi.

Chapter 2: The Divine Intervention

Raat ka gehra waqt tha. Ishaan apne kamre ke andhere mein akela baitha tha. Uski daadhi badh chuki thi, chehra peela pad gaya tha, aur aankhon ke niche gehre kaale ghere the. Uske kaanpte hue hathon mein sirf ek hi cheez thi—**Avika ka wo bracelet**. Usne us bracelet ko itni zor se bheencha tha ki uske nakhun hatheli mein chubh rahe the.

Jaise hi Ishaan ne apne seene mein uthte hue dard ke maare apni aankhein band ki, achanak aas-paas ka manzar badal gaya.

Wo ab apne us gande, andhere kamre mein nahi tha. Wo ek anant, safed roshni ke beech khada tha. Aur uske saamne the **Cristosapiens**—wo vishalkay cosmic beings jo roshni se bane the.

Ishaan ghutno ke bal unke pairon mein gir gaya. Uske gale se ek dardnaak cheekh nikli, *"Aapne kaha tha! Aapne kaha tha ki musibat ke waqt aap apni taakat dete ho! Mujhe taakat chahiye! Mujhe sab theek karna hai!"*

Cristosapiens ki awaaz poori roshni mein kisi mandir ke ghante ki tarah goonji: *"Nahi, Ishaan. Tumhe abhi hamari taakat nahi chahiye. Jab waqt aayega, wo taakat khud tumhe dhoond legi. Abhi tumhe wapas ja kar apna kaam poora karna hai."*

Chapter 3: The Return of the King

Agle din ki subah. Bhuvan aur Om lab mein SAHAY ke heavy data se ladd rahe the ki achanak system beeps karne laga. Unhe mehsoos hua ki SAHAY apne aap update ho raha hai, uske codes automatically rewrite ho rahe the.

"Ye update kaun kar raha hai?" Bhuvan ne hairani se screen ko dekhte hue pucha. *"Maine kiya,"* piche se ek gehri, bhari aur thandi awaaz aayi.

Sabne palat kar dekha. Wahan darwaze par **Ishaan** khada tha. Usne apni badhi hui daadhi saaf kar li thi. Uski aankhon mein ab kal raat wala dard aur darr nahi tha—wahan ab ek dahakti hui aag thi. Om apni jagah se utha aur apne bhagwan ko samne dekh kar uske pair chhune bhaga, *"Sir, main Om..." "Main jaanta hoon, Om,"* Ishaan ne use haath ke ishaare se beech mein hi tok diya. Uski aawaz mein ek aisi authority thi jise taala nahi ja sakta tha.

Bhuvan ne himmat karke pucha, *"Ishaan... Avika kahan hai?"* Ishaan ek pal ke liye ruka, uska jabda (jaw) tight hua, aur usne bina Bhuvan ki aankhon mein dekhe kaha, *"Abhi kaam pe focus karo."*

Lekin Ishaan pathar nahi bana tha. Raat ko jab Bhuvan uske kamre mein khana dene gaya, tab Ishaan ka wo strict faćade achanak toot gaya. Wo baccho ki tarah Bhuvan ke gale lag gaya aur rone laga. Usne rote-rote Bhuvan ko Avika ki maut ka saara sach, malbe ka girna, sab bataya.

Agle din, lab ke ek shant kone mein, unhone Avika ki aatma ki shanti ke liye ek gupt pooja rakhi. Aag ki lapton ko dekhte hue Ishaan ka khoon ab sirf ek hi shaks ke liye khol raha tha—Manvik.

Chapter 4: The Trap and The War

Sabko screen par bulate hue Ishaan ne apna plan bataya, *"Manvik har multiverse mein maujood hai. Wo hume lagatar dekh raha hai. Hume use harane ke liye ek aisi jagah jaana hoga jahan wo hume na dhoond sake—**Universe-24112604**."*

Ishaan ne portal khola aur us anjaan universe mein chala gaya. Idhar Manvik, jo apne dimaag ka sara hosh-o-hawaas kho chuka tha aur khud ko 'God' maan baitha tha, ne dekha ki Ishaan us universe mein gaya hai. Par jab Manvik wahan pahuncha, toh use Ishaan kahin dikhayi nahi diya. Wo ek ghante tak pagalon ki tarah hawa mein haath maarta raha.

Theek ek ghante baad, Ishaan achanak Manvik ke theek peeche prakat (appear) hua. *"Ye ek trap tha, brother,"* Ishaan ne itne thande lehze mein kaha ki Manvik ki rooh kaanp gayi. *"Tujhe uljhane ke liye maine ye game khela tha."*

Manvik gusse aur ego mein pagal ho gaya. Usne hawa mein haath uthaya aur har universe se chune hue apne 'Main Clones' ko bula liya—**Manvik Army**, jisme laakhon ki sena thi. Saamne Ishaan bilkul akela tha. Usne apni nayi **Astra Ring** activate ki, par laakhon ki sena us akele par haavi hone lagi. Ishaan buri tarah lahu-lohaan ho chuka tha, uske kapde phat chuke the, aur wo zameen par girne hi wala tha...

Tabhi, aasmaan cheerte hue ek behad chamakta hua **Purple Sudarshan Chakra** wahan prakat hua. Us chakra ne Manvik ki sena ko gaajar-mooli ki tarah kaatna shuru kar diya. Usi waqt, Ishaan ke kaanon mein Cristosapiens ki awaaz goonji: *"Maine kaha tha na, jab zaroorat hogi, taakat tumhe mil jayegi."*

Ab muqabla bilkul barabar ka tha. Ishaan ne bhi apne clones utaar diye. **Croreon 'Ishaan-Clones' vs Croreon 'Manvik-Clones'.** Poora multiverse is maha-yudh ke takrao se kaanp utha. Ek ke baad ek clones khatam hote gaye. Aur anth mein, us tabah ho chuke maidan mein sirf do log bache—**Main Ishaan aur Main Manvik.**

Chapter 5: The Singularity

Manvik ne aakhri daanv chala. Usne lapak kar Ishaan ka gala pakda aur use hawa mein upar utha liya. Uski aankhon mein pagalpan aur ghamand tha, *"Tu kabhi mujhse nahi jeet sakta, Ishaan! Main har universe ka topper hoon!"*

Ishaan ka dum ghut raha tha, uske paas saans lene ki jagah nahi thi. Usne dard mein apni aankhein band kar li. Aur usi andhere mein, use **Avika ka chehra dikha**. Uski wo pyaari si smile... uski wo nayi scooty chalane ki zidd... wo khoobsurat pal jo usne chheen liye gaye the.

Achanak, Ishaan ke dimaag ki jagah uske dil ne control le liya. Uski veins (nason) mein se ek tez **purple light** daudne lagi. Uski body achanak grow karne lagi. Uski aankhon se ek aisi tabaah karne wali roshni nikalne lagi jiske saamne suraj bhi fika pad jaye. Manvik ne jis haath se Ishaan ka gala pakda tha, wo haath sekendon mein evaporate (bhaap) ban kar udd gaya. Manvik cheekhta reh gaya.

Ishaan ka size ab itna vishalkay ho chuka tha ki wo poore Dimensional Nexus se bhi bada dikhne laga. Ek god-like entity. Usne apne vishalkay aur chamakte hathon se us poore Nexus ko pakda. Usne use zor se dabaya aur us nexus ko ek **Singularity Sphere** (ek chote se chamakte bindu) mein badal diya.

Isi ke saath, multiverse ke saare portals hamesha ke liye band ho gaye aur sab kuch pehle jaisa normal ho gaya. Manvik ka astitva hamesha ke liye mit chuka tha.

Epilogue

Is maha-yudh ke baad, duniya ke liye Ishaan ab ek aam insaan ya scientist nahi raha tha, wo **bhagwan ka avatar** ban chuka tha. Duniya theek hone lagi thi. Professor Kenji wapas America gaye aur NASA ke naye Chief bane. Aur idhar India mein, Bhuvan aur Mikhail ka ek bahut sundar beta paida hua, jo is nayi shant duniya ka pehla bachcha tha.

Lekin Ishaan... wo poori tarah badal chuka tha. Jeetne ke baad usme koi khushi nahi thi. Use samajh aa gaya tha ki jab tak aisi advanced takneek rahegi, koi na koi Manvik paida hota rahega. Usne lab mein jakar apne saare khatarnak inventions aur equations jala diye. Usne us **SAHAY** ko, jo uska sabse bada aavishkar tha, hamesha ke liye deactivate kiya aur uske servers ko bhi aag ke hawale kar diya.

Usne apni poori company, IKS, Om ke naam kar di.

Ek dhund bhari subah, jab poori duniya so rahi thi, Ishaan lab ke darwaze se bahar nikla aur kisi anjaan raste par chal pada. Uske paas na koi Astra Ring thi, na koi SAHAY, na koi Paradox aur na hi koi AI ki taakat. Uske haath mein sirf aur sirf **Avika ka wo bracelet** tha, jise wo apne seene se lagaye hue tha.

Wo waqt ka sabse bada hero tha, jisne pure brahmand ko bachaya tha. Par aakhir mein, wo sirf ek khamosh aur adhoora aashiq ban kar waqt ki dhund mein hamesha ke liye kahin kho gaya...

Ek Aakhri Paigam (Ishaan ki Taraf se):

"Duniya mujhe Topper kehti rahi, Manvik mujhe 'Data' samajhta raha, aur Cristosapiens ne mujhe 'God' bana diya... par sirf Avika thi, jisne mujhe 'Main' (Ishaan) samjha. Aaj na mere paas machines hain, na dimaag ka ghamand. Aaj main sirf ek khamosh musafir hoon, kyunki asli jeet multiverse bachane mein nahi, uski yaadon ko zinda rakhne mein hai."

THE END.
