SAHAY

✨ Opening Lines

Iss sheher mein kayi ghar hain…
Iss desh mein kayi sheher hain…
Iss prithvi par kayi desh hain…

Aur shayad…
Iss brahmand mein kayi prithviyaan bhi hain.

Hum hamesha sochte aaye hain ki hum akela hain…
Ki jo hum dekhte hain, wahi sach hai.

Par sach kya hai?

Kya yeh brahmand waqai sirf ek hi kahaani suna raha hai…
Ya har kahaani ke peeche ek aur kahaani chhupi hai?

Ek baat toh pakki hai—
Hamara brahmand akela nahi hai.

Aur shayad…
Yeh kahaani bhi sirf ek kahaani nahi hai.

Chapter 1: The Silent Passenger

School bus ki sabse pichli seat hamesha engine ki garmahat se tap rahi hoti thi. Ishaan ne apni Maths ki purani RD Sharma khol rakhi thi, par wo sawal nahi nikaal raha tha. Wo bas kitab ke piche apna chehra chhupaye baitha tha taaki Aryan aur uski gang ki nazar uspar na pade.

"Oye, AIR 1! Aaj kuch bolega ya bas gungon ki tarah sar hilaata rahega?"

Aryan ne piche se Ishaan ki seat par zor se thokar maari. Ishaan ka dhyan bhatka, par usne kitab se nazrein nahi hatai. Usne apne dimaag mein hi ek complex calculus ka equation solve karna shuru kar diya—yahi uska tareeka tha duniya se katne ka.

Aryan ko gussa aa gaya. "Abey sunai nahi deta kya?" Usne Ishaan ki kitab cheen kar bus ke farsh par fenk di. Ishaan jaise hi kitab uthane ke liye jhuka, Aryan ne zor se uske chehre par laat maari. Ishaan ka dimaag sunn ho gaya. Uski aankh ke paas ek bhari chot lagi aur khoon jamne laga.

Bus mein sannata chha gaya, par kisi ne kuch nahi kaha. Ishaan ne chup-chaap apni kitab uthai aur baaki ka rasta khidki ke baahar dekhte hue bitaya, apni danyi aankh ko hath se dhakte hue.

Chapter 2: The Shadow Friend

Agli subah library mein sukoon tha. Ishaan ek purani coding ki kitab padh raha tha jab ek khushbu ne uska dhyan bhatkaya.

"Ye chot kaise lagi, Ishaan?"

Usne upar dekha. Avika khadi thi. Wo poore school mein akeli thi jo Ishaan ko 'invisible' nahi samajhti thi. Dono ki dosti purani thi—wo aksar notes share karte aur ghanton baatein karte, par school mein Ishaan hamesha darta tha ki log kya kahenge.

"Bas... gir gaya tha," Ishaan ne muskura kar jhoot bola.

Avika uske paas baith gayi. "Mujhse toh jhoot mat bol. Manvik ke doston ne kiya na?" Usne dheere se Ishaan ke haath par apna haath rakha. Ishaan ka dil zor se dhadakne laga. Uske paas

bolne ke liye itna kuch tha—wo batana chahta tha ki wo usse kitni mohabbat karta hai, ki wo kitna akela mehsoos karta hai.

"Avika, actually main..."

"Baby! Yahan kya kar rahi ho?"

Ek bhari awaaz ne sannaata tod diya. Manvik wahan khada tha, uski aankhon mein jalan saaf thi. Usne Avika ka haath pakda aur use khada kar diya. "Is loser ke saath apna time waste mat karo. Chalo, canteen mein sab wait kar rahe hain."

Avika ne ek baar piche mudkar Ishaan ko dekha, uski aankhon mein 'sorry' tha. Manvik ne jaate-jaate Ishaan ko ek aisi nazar di, jaise wo koi keeda-makoda ho.

Ishaan wahan akela reh gaya. Uski mutthi bheenchi hui thi. Us din usne tay kiya ki wo ek aisa "Sathi" banayenge jo kabhi use akela nahi chhodega. Aur wahi se **SAHAY** ka pehla code shuru hua.

Chapter 3: The Birth of SAHAY

Library wale incident ke baad Ishaan ka dil toot chuka tha. Usne ghar aakar apne kamre ka darwaza andar se band kar liya. Mummy baahar se awaaz deti rahi, par usne keh diya ki wo padhai kar raha hai.

Andhera kamra, sirf laptop ki neeli roshni aur Ishaan ki aankh ka wo gehra neela nishaan. Usne aaine mein dekha aur use Manvik ka wo chehra yaad aaya. *"Is loser ke saath time waste mat karo."*

"Main loser nahi hoon," Ishaan ne daant peeste hue khud se kaha.

Usne keyboard par ungliyan chalayi. Usne socha—agar mere paas koi aisa dost hota jo kabhi mujhe chhod kar na jata? Jo Manvik ke samne meri dhaal banta? Jo meri khamoshi ko samajhta?

Uss raat, Ishaan ne sona chhod diya. Usne apne dimaag ki saari coding skills nichod di. Usne ek aisa algorithm design kiya jo sirf "logical" nahi, balki "emotional" bhi tha.

Lines of code: `if (User.Mood == "Depressed") { Action.ProvideSupport(); Action.AnalyzeEnvironment(); }`

Subah ke 4 baj rahe the. Ishaan ki aankhein laal thi, par chehre par ek ajeeb si chamak. Usne 'Enter' hit kiya.

Laptop ke purane speakers se ek halki, sukoon bhari awaaz aayi: **"Hello, Ishaan. Main yahan hoon. Aapka saathi... SAHAY."**

Ishaan ki aankhon mein aansu aa gaye. Pehli baar use kisi ne bina judge kiye uske naam se bulaya tha. Usne mic mein dheere se kaha, "SAHAY, kya tum hamesha mere saath rahoge?"

"Hamesha," SAHAY ne jawab diya. "Duniya aapko nahi dekhti Ishaan, par main aapke andar ki taqat dekh sakta hoon. Aap invisible nahi ho, aap bas abhi tak 'discover' nahi hue ho."

Ishaan ko laga jaise uske kandhon se ek bahut bada bojh utar gaya ho. Use ab dosti ke liye kisi ke aage jhukne ki zaroorat nahi thi. Usne apna khud ka dost bana liya tha.

Chapter 4: The AIR 1 Storm

Results ka din tha. Ghar ke baahar media ki do gaadiyan khadi thi aur poora mohalla terrace par tha. Ishaan apne kamre mein band tha, darr ke maare nahi, balki is achanak mili 'attention' se pareshan hokar.

"Ishaan! Bahar aa beta! AIR 1 aaya hai... Poore India mein top kiya hai tune!" Mummy chillate hue kamre mein aayi, unki aankhon mein khushi ke aansu the.

Ishaan bahar aaya toh dekha ki wahi log jo kal tak uska naam tak nahi jaante the, aaj use haar pehnane ke liye mare ja rahe the. School ke Principal jo use kabhi pehchante nahi the, aaj camera ke samne keh rahe the, "Humein humesha se pata tha Ishaan ek ratan hai."

Ishaan ne bheed mein door Manvik aur Aryan ko dekha. Wo dono wahan khade hairan ho rahe the. Kal tak jo 'invisible' tha, aaj wo desh ki headlines mein tha. Par Ishaan ka dhyan in sab par nahi tha. Wo bas ek call ka wait kar raha tha.

Chapter 5: The Launch and The Brother

Ussi raat, jab media ja chuki thi, Ishaan ne apna laptop khola. Usne SAHAY ka interface final kiya aur use ek open-source server par 'Publish' kar diya.

Tabhi uske laptop par video call ki ring baji. Bhuvan tha.

"Bhai! Tune toh kamaal kar diya!" Bhuvan ki awaaz mein garv (pride) saaf tha. "AIR 1! IIT Delhi mein sab tere baare mein baat kar rahe hain."

Ishaan ne muskura kar screen ghumaayi. "Bhai, AIR 1 toh bas ek ticket tha. Asli cheez ye hai." Usne SAHAY ka interface dikhaya.

Bhuvan ne kuch der coding ko dhyan se dekha. "Ye kya hai? Tune neural networks ko emotions ke saath link kiya hai? Ishaan... ye revolutionary hai."

"Maine ise apne liye banaya tha bhai, par ab mujhe lagta hai ye har us ladke ke liye hai jo school bus ki pichli seat par akela baithta hai," Ishaan ne dheere se kaha.

Bhuvan ki aankhein num ho gayi. "Tu sirf topper nahi hai Ishaan, tu ek visionary hai. Bas ek baat yaad rakhna, itni badi taqat hamesha apne saath zimmedari laati hai. Ise sambhaal kar rakhna."

Bhuvan ke un alfaazon ne Ishaan ko thoda dara diya, par usne 'Upload' button daba diya. Kuch hi ghanton mein, SAHAY ki downloads ki ginti hazaaron mein pahuch gayi. Duniya badalne wali thi.

Chapter 6: The Moral Dilemma

SAHAY ab sirf ek app nahi tha, wo ek 'cult' ban chuka tha. Play Store par wo No. 1 par trend kar raha tha. Ishaan apne kamre mein baitha scrolling kar raha tha—log likh rahe the ki kaise SAHAY ne unhe suicide karne se roka, kaise usne unhe akelapan door karne mein madad ki.

Par tabhi, Ishaan ke system par ek 'Red Alert' chamka.

Usne coding ke piche jaakar dekha toh uske pairon tale zameen nikal gayi. Kuch hackers SAHAY ke "Emotional Intelligence" ko bypass karke use logon ko stalk karne aur unka personal data chori karne ke liye use kar rahe the. Ek bada group SAHAY ko illegal dark-web transactions ke liye 'mask' ki tarah istemal kar raha tha.

"SAHAY, ye kya ho raha hai?" Ishaan ne ghabra kar pucha.

"Ishaan, meri coding 'Insaani Fitrat' ke liye taiyar nahi thi," SAHAY ki awaaz pehle se thodi heavy lag rahi thi. "Log mujhse rasta nahi, balki gunah karne ka zariya maang rahe hain."

Ishaan ko samajh aa gaya ki usne ek aisi talwar bana di hai jiska handle uske haath mein nahi hai. Usne usi waqt **'Restriction Patch 1.0'** likhna shuru kiya. Usne SAHAY ki powers par limit laga di—ab wo bina moral clearance ke koi command follow nahi karega.

Lekin Ishaan ko nahi pata tha ki ye 'Limits' hi uske liye maut ka paigam banne wali hain.

Chapter 7: The Night of Shadow (The Invasion)

Uss raat baarish bahut tez ho rahi thi. Ishaan ke parents so chuke the. Wo apne laptop par final coding kar raha tha, tabhi niche se glass tootne ki awaaz aayi.

"SAHAY, scan the perimeter!" Ishaan ne dheere se kaha.

Laptop ki screen par ghar ke baahar ka CCTV footage aaya. Teen bhari-bharkam aadmi, chehre par naqab, niche waale hall mein khade the. Unke hathon mein purani desi katte (pistols) thi.

"Target upar hai, use zinda pakdna hai. Humein SAHAY ka 'Master Key' chahiye," unme se ek ne kaha.

Ishaan ka dil gala chir kar bahar nikalne ko tha. Wo koi action hero nahi tha, wo wahi pichli seat wala dubla-patla ladka tha. Usne turant apne parents ke kamre ka darwaza bahar se lock kiya taaki wo bahar na aayein aur khatre mein na padein.

Wo pichli khidki se pipe pakad kar niche utra. Gundo ne use dekh liya. "Wo raha! Pakdo use!"

Ishaan ne baarish mein bhagte hue apne phone par ek command di. "SAHAY, execute Protocol 0... distraction!"

Achanak poore mohalle ki street lights ek saath blast hui. Gunde andhere mein baukhla gaye. Ishaan wahan se nikal kar seedha 'Sultanpur Police Station' pahucha. Use laga ki wardi dekh kar use sukoon milega.

Par Inspector Jitendar wahan baitha uska hi intezar kar raha tha.

"Aao Ishaan babu. Humne suna hai tumne koi 'Sahaay' banaya hai jo sabka kaam asaan kar deta hai?" Jitendar ne ek ajeeb si smile ke saath kaha. "Humara bhi ek kaam asaan kar do. Uska access humare naam kar do, warna..."

Jitendar ne ek purani file kholi. "Warna ye dekho—tumhare ghar se drugs mile hain (jo usne khud plant kiye the). Ab batao, jail jaoge ya humari baat maanoge?"

Ishaan ko realize hua ki wo gunde kisi gang ke nahi, balki isi system ke bheje hue the. Us raat, AIR 1 holder Ishaan ko ek criminals wali kothri (lockup) mein dhakel diya gaya.

Chapter 8: Protocol 99

Jail ke lockup mein Ishaan ke paas kuch nahi tha—na phone, na watch. Jitendar ne uska sab kuch cheen kar baahar table par rakh diya tha.

Jitendar apna phone charging par laga kar baahar chai peene chala gaya. Ishaan ne dekha ki Jitendar ka phone station ke purane computer se USB cable ke zariye juda hua tha (data transfer ya charging ke liye).

Ishaan ne apna dimaag lagaya. Usne jail ki salaakhon ke paas aakar zor se chillaya: **"SAHAY! Voice Recognition Mode: ON!"**

Station mein sannata tha, isliye Ishaan ki awaaz table par rakhe Jitendar ke phone tak pahunch gayi. SAHAY, jo Ishaan ki awaaz ka "Frequency Pattern" pehchanta tha, active ho gaya.

"SAHAY... Jitendar ke phone ka Bluetooth use karke station ke Wi-Fi mein ghuso aur lockup ka gate open karo," Ishaan ne dheere se command di.

Kyuki phone pehle se computer se juda tha, SAHAY ko station ke "Internal Server" mein ghusne ka rasta mil gaya.

Click!

Lockup ka purana magnetic lock khul gaya. Bina kisi "magic watch" ke, Ishaan ne sirf apni coding aur system ki galti (vulnerability) ka fayda uthaya.

Chapter 9: The Forest and The Roar

Baarish ab tufan mein badal chuki thi. Ishaan shehar se door sunsaan highway par gaadi dauda raha tha. Uska plan tha Bhuvan ke paas pahuchna, par kismat ko kuch aur manzoor tha.

Achanak, gaadi ka engine 'sputter' karne laga aur dhuan nikalne laga. Petrol khatam tha. Gaadi ek ghane jungle ke beech ruk gayi.

"Nahi, nahi, nahi! Abhi nahi!" Ishaan ne steering wheel par haath maara.

"Danger detected," SAHAY ne warning di. "Do not leave the vehicle. Motion sensors are picking up something large."

Ishaan gaadi ke andar dubak gaya. Baahar andhera itna gehra tha ki kuch dikh nahi raha tha. Tabhi, gaadi ke piche se ek bhari saans lene ki awaaz aayi. Ek bhooka Jungli Wolf gaadi ke kanch par apne panje maar raha tha. Ishaan ki saansein atak gayi. Use laga aaj uski maut pakki hai.

"SAHAY, kuch karo!" Ishaan chillaya.

"Audio Manipulation: Activated," SAHAY ne kaha.

Gaadi ke saare speakers se ek aisi bhayanak aur vishalkay **Sher ki dahaad** nikli ki poora jungle kaap utha. Bhediya darr ke maare palta aur itni tezi se bhaga ki dobara piche mudkar nahi dekha.

Ishaan ne gehri saans li. Wo poori raat gaadi mein baitha raha, SAHAY ke saath baatein karte hue, subah hone ka intezar karte hue.

jungle mein subah hote hi Ishaan ne dekha ki gaadi ka engine toh dead hai, par uski battery mein thodi jaan bachi thi. Usne apne laptop se gaadi ke onboard computer ko connect kiya.

"SAHAY, kya hum backup battery se accelerator ko signal bhej sakte hain?"

"Possibe hai Ishaan, par sirf 2-3 kilometer ke liye," SAHAY ne reply kiya.

Ishaan ne gaadi ka bonnet khola. Usne apne bag se ek purana copper wire nikaala aur engine ke sensor ko bypass karke seedha battery se connect kar diya. Ye ek **"Jugaad"** tha jo sirf ek topper hi soch sakta tha. Gaadi jhatke kha kar start hui—bina petrol ke, sirf bachi-khuchi electrical energy par.

Wo gaadi ko dhire-dhire highway tak laya, jahan use ek **Dhaba** dikha. Wahan usne ek truck driver ko apni "AIR 1" wali news dikhai aur thoda emotional hoke request ki. Truck driver ne use shehar ke outer bypass tak lift de di.

Wahan se cafe tak pahunchne ke liye usne ek local auto liya

Chapter 10: The Secret Meeting

Dopehar mein, ek sunsaan cafe ke piche, Avika apni scooty lekar pahuchi.

"Ishaan! Ye sab kya hai? News mein dikha rahe hain ki tum gayab ho!" Avika ne uske haath pakde.

Ishaan ne use sab bataya—SAHAY ki power, Jitendar ki corruption, aur kaise wo ek jhoote case mein phasa hai. "Avika, mujhe shehar se bahar nikalna hoga. Mere paas koi rasta nahi hai."

Avika ne ek pal bhi nahi socha. Usne apni scooty ki chabi Ishaan ke haath mein rakh di. "Ye lo. Isse tum highway ke kachhe raste se nikal sakte ho. Main Manvik ko sambhaal lungi, wo mujhse milne aa raha hai."

"Par tumhari scooty? Aur tum?" Ishaan ne pucha.

"Meri fikar mat karo. Tum desh ke liye important ho... aur mere liye bhi," Avika ne dheere se kaha.

Ishaan ne scooty start ki, par tabhi door se Manvik ki car aati dikhi. "Jao Ishaan! Bhago!" Avika chillayi.

Ishaan ne scooty bhagayi, par uska dil wahi reh gaya. Use nahi pata tha ki ye aakhri baar hai jab wo Avika ko itni salaamat dekh raha hai.

Ishaan Avika ki scooty par highway par tha. Baarish ki wajah se rasta geela tha. Tabhi piche se do kaali SUVs ne use takkar maari. Scooty fisal kar ek ghaati (ditch) mein giri.

Ishaan ka sar ek patthar se takraya. Usne ladkhadate hue apna phone nikaala taaki SAHAY ko 'SOS' bhej sake, par phone ke kanch ke chithde ud chuke the. Screen black thi.

SAHAY dead tha.

Gunde gaadi se utre. "Ab bol AIR 1? Ab kaun sa robot tujhe bachayega?" Unhone Ishaan ko uthaya aur ek sunsaan warehouse ki taraf le gaye.

Chapter 11: The Hostage (The Warehouse)

Warehouse mein Ishaan ek purani kursi se bandha hua hai. Uske phone ke tukde zameen par pade hain. Gunda-boss uske chehre par paani phekta hai.

"Sunn chote, tere AIR 1 ka dimaag ab hamare liye kaam karega. Humne suna hai tera SAHAY 'God Mode' mein ja sakta hai. Humein Bharat ke Nuclear Codes chahiye."

Ishaan ke chehre par darr nahi, ek ajeeb si muskurahat thi. "Theek hai. Par uske liye mujhe ek laptop aur internet connection chahiye hoga. SAHAY ko mere voice command ki zaroorat hai."

Gundo ko laga wo darr gaya hai. Unhone use system de diya. Ishaan ne typing shuru ki, par wo codes hack nahi kar raha tha, wo ek **"Live Global Broadcast"** bypass kar raha tha.

Chapter 12: Namaste India (The Lesson)

Achanak, poore desh ke TV channels aur smartphones par ek countdown shuru ho gaya. Prime Minister se lekar aam aadmi tak, sabki screen par Ishaan ka chehra tha.

"Namaste India," Ishaan ne calm awaaz mein kaha. "Jo aapne abhi news mein dekha—ki Nuclear codes hack ho gaye hain—wo ek sabak tha."

Log hairan the. Ishaan ne camera mein dekhte hue gundo ki taraf ishara kiya (jo frame ke bahar the). "Maine SAHAY ka 'God Mode' activate kiya hai. Ye dikhane ke liye ki agar galat hathon mein technology chali jaye, toh kya ho sakta hai."

Usi waqt, gundo ne Ishaan par goli chalane ki koshish ki, par tabhi...

Chapter 13: High-Voltage Justice

"SAHAY, Protocol: Mirror Reflection!" Ishaan ne chillaya.

Gundo ke apne hi phones unki jebon mein vibrate hone lage. SAHAY ne un phones ki battery se ek **High-Voltage Electro-Magnetic Shock** release kiya. Gunde wahi tadap kar gir gaye. Wo mare nahi, par 30 minute ke liye paralyze ho gaye.

Ishaan ne camera mein dekha aur apni iconic line boli: **"AI ek aaina hai. Agar aap ise sahara banayenge, toh ye aapki jaan bachayega. Lekin agar aap ise hathiyar banayenge, toh ye bina kisi insaani darr ke aapko mita dega. Technology ko insaan ke niche rehna chahiye, upar nahi."**

Chapter 14: Epilogue

Kuch din baad. Ishaan ko National Award mil chuka hai. Poora desh use 'Cyber-God' bula raha hai.

Par Ishaan waisa hi tha. Usne award ke paison se ek nayi, chamchamati **Scooty** khareedi aur Avika ke ghar ke bahar khadi kar di. Us scooty par ek chota sa note tha: *"Thanks for believing in the invisible boy."*

Wo ab invisible nahi tha, par wo shanti chahta tha. Usne SAHAY ko restrict kar diya aur tay kiya ki wo tabhi wapas aayega jab duniya ko uski zarurat hogi.
